

WE KNOW WHERE WE'RE GOING – WHY NOT COME ALONG?

Anderton Gables are looking for bright, interesting, articulate and commercially minded Building Surveyors, Quantity Surveyors and Project Managers to join our rapidly expanding practice.

Recruiting and developing the best graduates is fundamental to our growth plans and we have much to offer;

- Our graduates enrol onto our APC programme as soon as they join us and start working towards chartership – rotating around our service stream to ensure they get the breadth and depth of experience required to pass the APC.
- Our Graduates are overseen by an allocated APC Supervisor and we have current RICS APC Assessors in our teams so you will be fully prepared – we even offer Mock APC interviews to other practices candidates. No wonder our APC pass rate is outstanding!
- A great working environment, great and interesting clients across the UK, a competitive remuneration package and a great culture to grow in.

Our culture is all about communication, teamwork, having fun and having a positive approach.

You will need sound communication and relationship building skills; be motivated; have attention to detail and be a down to earth team player with a can-do attitude.

If this sounds like you and you're interested in developing yourself whilst receiving a great remuneration package, then please send your CV and a covering letter stating why you think you'd be the right fit for us to
